## AEON ROCKET™ MORTEN VOSS 2012

Aeon Rocket™ strikes a fine balance between a simple metal upper shade and a gauzy lower shade. The impression of lightness is created by hours and hours of meticulous manual work. 8 light bands made of recyclable polypropylene are carefully woven together into 100 and 98 round wopenings respectively, allowing the light to stream through unhindered.

## AQ01™ ANNE QVIST 2017

The AQ01™ has curvy edges and matte finish. The shade can be switched on, off and dimmed directly at the top. The diffuser prevent glare and give off 100 percent direct downward illumination in a symmetric rotational pattern. The delicate arms connecting the two joints hide the wire within and keep it in place with an internal spring. The AQ01™ can be installed as a plug-in as desk-light, placed in a table or a wall base.

AVION™  
ISKOS-BERLIN 2012

A childhood fascination with Zeppelin airships gliding with steady grace across the sky, inspired Iskos-Berlin to create Avion™. The large, oval pendant hovers playfully in the air, ready to change its direction to suit your desire. The pendant emits a soft, diffuse light that creates a cosy, natural atmosphere. Avion™ can be arranged in a regular formation, as a dynamic pack or similarly it can be suspended in a line to mark a passage through a building.

## BULB FICTION™

KIBISI 2012

Bulb Fiction™ is close to the classic incandescent bulb, but the shape has been upscaled and designed as a whole unit, uniting socket and bulb into one iconic shape. The same applies to the cord, which has been given extra volume using a thick, white silicone cover.

Bulb Fiction™ consists of a hand-blown acid-treated opal glass shade and an aluminium suspension with a soft, organic shape.

## CALABASH™ KOMPLOT DESIGN 2010

Calabash™ is authentic craftsmanship from the core to the surface. The organic design idiom and the specially chromed and slightly changeable surface provide Calabash™ with a unique expression. Every pendant goes through a comprehensive 4-step lacquering process, which is exclusively carried out by hand. The three pendant sizes present the same easily recognisable shape, although without being identical.

## CARAVAGGIO™ CECILIE MANZ 2005

The Caravaggio™ range of high-gloss pendants was launched in 2005 and instantly singled out as a design icon. The distinctive red cord and the polished surface, clearly highlight one of the most striking pendant designs of the 2000s. The praised Cecilie Manz design elegantly combines a recognisable shape with a modern expression.

## CARAVAGGIO™ MATT CECILIE MANZ 2005

The completely matt finish adds a rare depth and tangibility and imbuing it with a warm, cosy feel. The delicate black, white and two grey tones are carefully balanced and interact elegantly with each other. The new tones from 2018 have their roots in nature's earthy hues: warm silk, archipelago stone, dark sienna and dark ultramarine. The discreet tones are timeless and suit more-or-less all settings.

## CARAVAGGIO™ OPAL CECILIE MANZ 2005

With Caravaggio™ Opal, Cecilie Manz has combined the characteristic design with a completely different lighting effect. The opal glass shade emits a soft, dimmed light, which is particularly suitable for rooms where a more evocative lighting is required. The lamp is suspended by the three well-known shackles, which here form a raw and masculine contrast to the feminine opal hand-blown glass.

## CARAVAGGIO™ READ CECILIE MANZ 2005

Based on the well-known Caravaggio™ shape, Cecilie Manz has created a functional reading lamp series. The iconic shade is installed on a flexible tube, allowing you to tilt the shade and direct the light. The lamps can be rotated for different needs. The floor and table lamps are fitted with a 3-step touch-control dimmer for adjustment of light intensity. On the wall lamp, the switch is positioned discreetly at the bottom of the wall bracket to ensure easy access.

## CARAVAGGIO™ READ HSP CECILIE MANZ 2005

Since 2016, the Caravaggio™ Read series has proven its worth as a functional and aesthetic lighting solution for private homes. Now, the Read series is ready to move into the market of hotels and restaurants with a new and contract focused design. The HSP series - short for hospitality. Based on the same functionality as the original Read series, the HSP is designed to accommodate the challenges of the hospitality world with a simple design.

## CONCERT™ JØRN UTZON 2005

Concert™ gives a pleasant, non-glaring light without compromising the strength of illumination. The chosen shade configuration is visually characteristic of Jørn Utzon and reminds us of his greatest work — the Sydney Opera House. Concert™ is designed with four shades and a parabola of drawn steel, resting on a glass cone suspension. The suspension unit sends out a pleasant, even light between the shades. The bottom shade casts light downward to the parabola, which then diffuses it.

## CROSS-PLEX™ BODIL KJÆR 1961

Cross-Plex™ is a great example of Bodil Kjaer's functionalistic expression with its clean and straight lines. It is centred on a cross-base of clear acrylic that creates an elegant play of surfaces and incorporates the cord as a central part of the design. The light from the cubic lampshade, shaped in opal acrylic, create a cosy atmosphere.

DOGU™

MICHAEL GEERTSEN 2016

The name Dogu™ is Japanese and refers to old traditional figurines portraying animals and humanoids. The shade is made of bone china – an exclusive material created from actual bone powder and white clay. The translucent material ensures that the light projects through the shade and renders the lamp light, warm and extremely cosy at the same time.

## HL™ 410

HENNING LARSEN 1975

HL™ provides a diffuse light. The HL™ lamp is constructed from warm-galvanized steel, untreated copper and clear/opal acrylic. In time, the untreated copper shade takes on a characteristic dark look and eventually it becomes the classic verdigris colour. Thus the outdoor lamp grows more beautiful year after year.

## JUICY™ SALTO & SIGSGAARD 2011

The Juicy™ pendant is logical, simple and functional. The various parts of the lamps: the wire, cone and shade come together seamlessly, which makes the pendant seem like an organic whole. Towards the bottom, Juicy™ is finished off with a honeycomb-filter, which effectively concentrates the light while preventing dazzle at the same time. The glossy surface is visually broken by a shiny ring, which marks where the lamp can be separated for change of light source.

LULLABY™  
MONICA FÖRSTER 2014

The Lullaby™ is formed into a pentagonal, yet slightly organic-looking shape using five slender ash lamellae. The ash gives the diffuse shade stability, shape and character. In addition, the shade has outstanding luminous qualities, which enable the Lullaby™ to emit a soft, muted light.

## MINGUS™ CECILIE MANZ 2011

Mingus™ is organic even if it originates in four straight facets. The lamp's top is flat and fitted with an acrylic fixture that allows light to seep out. The Mingus™ pendant is available in six matt nuances. In addition to Pure White, there are five other tones carefully selected by Cecilie Manz: Nearly Black, Very Grey, Pale Moss, Light Celadon and Dusty Limestone. The tones change in different lights and take on the colour of their surroundings.

**RADON™**

HANS SANDGREN JAKOBSEN 2010

The fundamental geometric forms – the circle and the triangle – are key elements in the design of the Radon™ series. The light from Radon™ is direct and adjustable. The shade is multi-directional and furnished with an asymmetrical reflector, ensuring that light spreads out precisely to the surface where it is needed. The switch is placed at the top of the lamp, while the cord leads discreetly out of the back leg to help preserve the lamp's clean lines.

**SUSPENCE™**  
GAMFRATESI 2013

GamFratesi's inspiration for the Suspence™ lamp series is translating a movement into a physical shape. The infinity diffuser concentrates the light and prevents glare and creates an elegant optical illusion of infinite depth. Suspence™ Nomad is designed to be moved around in the home e.g. on the floor, staircase or terrace, just like a nomad. The lamp is easily carried by the silicone handle at the top.

## Välkommen till Skandinavians ledande inredningsföretag

Vi tillhandahåller behovsanpassad inredning utifrån kundens förutsättningar beträffande design, profil, funktion, ergonomi och ekonomi. Vi arbetar med kontor, hotell och restaurang, skola och utbildning samt vård och omsorg.

## Input sedan 1987

Att gestalta en miljö som människor kan trivas och jobba effektivt i är ett hantverk som handlar om lika delar planering och finurlighet. Sedan 1987 har vi utvecklats till en komplett leverantör av inredning; allt från projektledning, upphandling till leverans, montering och efterservice. Läs mer om oss på [www.inputinterior.se](http://www.inputinterior.se).

**En kund · ett datum · en leverans**
