## LINEAR SYSTEM

“The Linear System Series places people at its center, being a place to meet, to collaborate or to work in focused solitude. The design process was about creating a system that made for intimately welcoming atmospheres, enhanced by the expression and functionality of its lighting and accessories. The Linear System Series brings feelings of home into larger spaces to give the user a sense of belonging. The extensive selection of lighting and accessories means that the Linear System Series can be configured and reshuffled for any purpose, marrying the ideas of aesthetics and function into one.”

The Linear System Table is available as a freestanding table to be used on its own, as predesigned configurations or as Middle and End Modules that can be configured to the exact needs of your space. Screens and trays are available in various sizes and are mounted into the ridge that runs down the tabletop, allowing for them to be shuffled around as functional and aesthetic needs evolve. Adjustable feet are included for the possibility of adjusting the height of the table's legs. ## BEAM TABLE LAMP

"The idea for the Beam Table Lamp came while renovating my childhood home. I had made a shelf to use as divider between the hallway and living room and needed a lamp that could at once throw light out into the living room and down the hallway. The Beam Table Lamp mimics a single ray of light that travels through a round tube with its dimmer allowing the user to change the volume of light omitted from both ends of the cylinder shape. Tweak the design to your personal needs through its rotating base and sleek body of anodized aluminum, whether it be as direct lighting or for an ambient glow. With the Beam Table Lamp, you can alter the volume of light omitted, change its direction by the turn of its base and place it on any shelf, table or windowsill for a new perspective on modern lighting."

## CONTROL TABLE LAMP

"The Control Table Lamp is a unique and playful lamp with references to hi-fi and industrial machinery. The light and dimmer is controlled by a switch, referencing volume controls, and is an inviting and simple way of interacting with the user. While designing the lamp, we were inspired by the idea of displaying the different lamp components on a serving plate—almost as a still life. It was a pragmatic approach to making a lamp by the simplest means, a reduced design beyond reduction."

## EASE PORTABLE LAMP

"I wanted the Ease Portable Lamp to have a remarkable quality of light, striking a versatile balance between atmospheric and functional light — after all, that is the wonderful thing about a portable lamp — you can bring a distinct ambience to literally anywhere. I landed on the idea of the top and bottom gently touching, softly meeting each other. There is a sense of lightness to it. This feature allows a large surface to emit light, while the flared bottom firmly stabilizes it. It is these details that give the lamp a sort of human quality, making it a reliable friend."

## FOCUS TABLE LAMP

"The Focus Table Lamp is an everyday object with a sculptural appeal and an apparent function: it is a lamp and a pedestal where your favorite small objects may be placed and highlighted. Working with the appearance and the delicate dimensions, I tried to give the lamp a unique personality characterized by an embracing and protective nature. The focus is on the pedestal and the object which is placed on it. Therefore, all components are fixed in position. Personally, the pedestal, with a cone of ambient light, solved my problem of misplacing my keys. Now I always know where they are."

## RIME PENDANT LAMP

"Designing simple things is often one of the hardest things to do. We wanted to create a simple lamp with a glass shape, giving it a soft expression while making its top and pendant tube as subtle as possible. We were inspired by the shape of acorns for the gentle lines of the pendant while hinting towards the shaded expression of ice and rime for the glass of the design, allowing for the light to shine slightly through with a refined touch. The Rime Pendant Lamp brings a timeless yet modern perspective to the archetypal light through its translucent shade and graphic form."

Wooly is woven in 70% recycled wool, sourced from leftover materials of clothing production and other wool products. One kilo of pure new wool generates 9 kilograms of carbon dioxide when produced while processing one kilo of recycled wool only generates 0.5 kilograms of carbon dioxide. Furthermore, recycled wool has a positive environmental impact due to lessened water consumption and lower energy consumption.

### ORDERS

All orders placed by the buyer must be in writing and shall at the minimum specify the type (product number and/or name) and quantity of the products ordered as well as the requested date of delivery. The order is not binding upon Muuto unless and until Muuto has issued a written order confirmation to the buyer. Unless objections are made within 24 hours after receipt, the order confirmation is considered accepted by the buyer.

For customers on prepayment terms Muuto will start production of made-to-order products immediately when prepayment has been received.

### PRICES

The present price list replaces all previous price lists and may be subject to changes at any time without prior notice. The purchase price for the products ordered by the buyer is stated in the order confirmation. Delivery and installation is not included in the purchase price. Unless otherwise agreed, quotations submitted by Muuto shall be valid and binding for 60 days after receipt.

### DELIVERY

Unless otherwise agreed in writing, delivery shall be ex. works (Incoterms 2020) from the place designated by Muuto from time to time. If transportation of the products is handled by Muuto's forwarding agent on behalf of the buyer, Muuto will invoice the freight to the buyer. The products shall be sent using standard packaging. The confirmed delivery date is only an estimated delivery date and the time of delivery shall not be considered of essence. Muuto cannot be held liable for any damage or loss that the buyer may suffer as a result of a delay or a non-delivery. If no specific delivery date has been indicated in the order confirmation, Muuto, acting reasonably, is entitled to stipulate a delivery date taking into consideration the quantity and the nature of the products to be delivered.

The buyer is always obliged to inspect the products delivered upon receipt, i.e. checking that the correct type of products has been delivered, and checking that the correct quantity of the products has been delivered.

Should a delivery fail to meet the buyer's expectations, or is the delivery damaged during transportation, the buyer shall:

1. Inspect the entire delivery immediately.
2. Accept the delivery, but immediately note the damage on the freight documents by stating, "Received with reservation".

All bank charges are the responsibility of the buyer. All products not paid for in the full, including interest and delivery (if any), shall remain the property of Muuto. The buyer shall at all times keep such products separated from any other products held in stock, and must ensure that the products can at all times be identified by Muuto. The buyer shall be liable to Muuto for any damage to the products until they have been paid for in full as stated above. There will be a penalty interest of 2% per month when payment is made after the due date. Such interest is payable without any further notice. Prepayment of proforma invoice is required for buyers without credit. The buyer must state account number as well as the proforma invoice number on the payment.

## WARRANTY AND LIMITATION OF LIABILITY

Muuto offers a warranty against defects of manufacture and materials on standard products. The warranty listed in Muuto's current pricelist shall be valid from the date of delivery provided that the products are used under normal circumstances and maintained according to guidelines. Excluded from this warranty are all defects due to or caused by transport, incorrect use, inadequate maintenance, accidents, the buyer's alteration or repair, modification of the product (incl. certification through 3<sup>rd</sup> party) as well as normal wear and tear of the products.

Natural variations in organic materials cannot be considered defects, and Muuto explicitly excludes itself from liability for any such variations. Muuto's warranty against defects of upholstery requires that such upholstery (fabric or leather) is included in the price list and is recommended by Muuto. Should the buyer wish to provide its own upholstery (fabric or leather), or should the buyer wish to itself process (whether by dyeing or otherwise) the upholstery provided by Muuto, Muuto's warranty lapses. Muuto cannot in any way be held responsible for materials delivered by the buyer, including the compliance of such materials with local law of the country or state to which they are delivered, irrespective of whether such materials have been upholstered or otherwise incorporated into Muuto's products by Muuto."

Unless otherwise stated in these General Terms of Sale and Delivery, Muuto is not liable to the buyer for loss of production, loss of use, loss of contracts, loss of profit or for any other consequential or indirect loss whatsoever.

## PRODUCT LIABILITY

Mandatory product liability rules in force from time to time shall apply to disputes regarding product liability. Unless otherwise required by mandatory legislation, Muuto shall not be liable to the buyer for any damage or loss caused by the products, including but not limited to liability for loss of production, loss of use, loss of contracts, loss of profit or for any other consequential or indirect loss whatsoever.

The buyer must ensure that any products purchased from Muuto fulfill the legislative requirement, hereunder has the required certifications, in the region or country, where the product is to be used.

If buyer makes any alteration or modification to the product, Muuto shall not be liable to any damage to the product, other objects or property.

## REMEDIES

With respect to products that are defective, Muuto may choose to refund the purchase price for such products, repair such products or replace such products, always provided that it is a condition for such refund, repair or replacement that the buyer has notified Muuto about the defect within reasonable time after the buyer discovered or ought to have discovered it, and provided that such notice is given within the warranty period in accordance with the instructions in the below paragraph "Filing Complaints". Thus, Muuto is not obligated to replace customized or discontinued products.
