Gardiner.

Med textilens stora mångfald och ökande betydelse som inredningsmaterial, finns det oändliga möjligheter att skapa en trevlig, effektiv och sund arbetsmiljö.

Solskydd.

Vad ska jag välja? Kontakta någon av våra duktiga tekniker eller säljare så får du hjälp att välja rätt produkt, väv och uppsättning för just er arbetsplats. Du får rätt inneklimat som höjer prestationen både hos dig själv och dina medarbetare.

Tapetsering.

Möbelomklädnad kan sammanfattas kort, hållbarhet, miljö, hantverk, kunskap, förnyelse och kärlek.

Akustik.

Akustik är läran om hörbart ljud, ljud som kan skapa "sjuka" miljöer. Med akustiktextilier, textilier och ljudabsorbenter på vägg eller i tak kan vi förbättra ljudnivån i er arbetsmiljö och skapa ett friskare rum.
