COMPILE SHELVING SYSTEM

"Storage is important because it is so universal: everybody needs good solutions. The inspiration for the Compile Shelving System was indeed the everyday storage situation. The design, with its logical construction, parallels to a certain degree an unpretentious Scandinavian lifestyle—one shelf represents one building unit while the length of the tube defines the shelf height. In this simple way one can assemble practical formations that fit individual needs—Compile should reflect and accommodate the life of which it is part."

— Cecilie Manz

Designed by	Cecilie Manz
Environment	Indoor
Country of Production	Poland
Assembly Required	Yes
Description	A contemporary take on the classic shelving system. Compile consists of a shelf and three heights of dividing tubes. Arrange the shelves and tubes as you please or order from the prearranged configurations.
Material	Powder coated steel.
Cleaning & Care	Remove dust from shelves with a soft cloth.
Additional Product Information	Compile systems should always be mounted to a wall, using wall brackets. A Compile Shelving System can hold up to 300 kg / 660 lbs. Compile Shelving Systems can be built as tall as wanted, as long as they are mounted to a wall using brackets. Muuto recommends not building Compile systems higher than 225 cm / 88.6".
ANSI/BIFMA X5.9-2019*	TESTS & CERTIFICATIONS American National Standard For Office Furnishings – Storage Units. *Tested with wall brackets attached to the wall.
EN 16121:2013*	Test severity I. Non-domestic storage furniture. Requirements for safety, strength, durability and stability.
EN 16122:2012*	Domestic and non-domestic storage furniture. Test method for the determination of strength, durability and stability. *Both tests were conducted using a 180 cm / 70.75" shelving configuration with wall brackets attached to the wall.

MUUTO

ARRANGE DESKTOP SERIES

“We wanted to create a flexible system that allowed for us to organize things on a desk or shelf. A focal point in the design process was to make the design playful by encouraging the user to interact with it, using and reconfiguring the combination of trays, paired with an expression that is inspired by contemporary architecture. With its trays made in 100% recycled plastic and lids in cork and aluminum, the Arrange Desktop Series brings a forward-thinking perspective to modern storage.”

— Big-Game

Designed by	Big-Game
Environment	Indoor
Country of Production	Trays: Demark / Aluminum Lid: China / Cork Lid: Vietnam
Description	The Arrange Desktop Series is a configurable design that brings elegant functionality to the home office and workplace through its playful character and architectural expression. With its trays made using 100% recycled plastic alongside lids in either cork or anodized aluminum, the Arrange Desktop Series brings a sustainable perspective to modern storage.
Material	Trays made using 100% recycled plastic, from post-consumer polypropylene that has been collected in Europe. Cork lid in cork. Aluminum lid in anodized aluminum.
Cleaning & Care	We recommend that the Arrange Desktop Series should be cleaned with a standard cleaning soap and water. It should be applied with a standard cloth and should not be done with force. We do not recommend putting the product in the dishwasher nor using any chemicals or bleach to clean the item as this may be harmful to the surface.

COMPILE BOOKEND

"The Compile Bookend adds a sculptural feature to your shelving system, with clear lines and multiple display options for your favorite books and magazines. The bookend supports itself, ensuring unrestricted movement and creative freedom of use. It serves as a functional element, adding color and character to shelves at home or in the office."

— Cecilie Manz

Designed by	Cecilie Manz
Environment	Indoor
Country of Production	Sweden
Description	The Compile Bookend is an elegant compliment to any bookshelf, windowsill or desk. It can be placed in several positions to accommodate books of differing sizes. With its clean geometric shape and various colors, the Compile Bookend brings a refined statement to any scenery.
Material	Made from laser cut steel sheets, bent to form, and then coated with high quality powder.
Cleaning & Care	Clean with moist cloth.

RESTORE SERIES

"I wanted for the Restore Series to have a humble character, allowing for it to easily fit into any environment. With its felt material made using fibers from recycled plastic bottles, the Restore Series has a curious and inviting expression while its corner slits bring a distinct look and added functionality to the design."

— Mika Tolvanen

Designed by	Mika Tolvanen
Environment	Indoor
Country of Production	China
Description	Made from a felt made of recycled plastic bottle fibers, the Restore Series is a functional and versatile storage unit that can be used for almost any object from laundry to blankets to children's toys. The Restore Series comes in a variety of colors and offers a textural, quirky addition to any home or professional space.
Material	The material is PET felt fibers. A percentage of the product comes from recycled plastic bottles, which are granulated, heated and blown like little fibers that are subsequently dyed. The fibers are worked together like mats, which can be pressed over heat-influenced forms that enables the material to maintain its shape.
Cleaning & Care	Vacuum. If necessary use moist cloth.

20 % rabatt ska dras av på angivna priser.

SKETCH TOOLBOX

"The Sketch Toolbox is a small, friendly piece of architecture for the desk, helping you organize your tools and objects. Inspired by the simple architecture of houses, the design brings functionality and versatility with its compartments in various depths, alongside the handle, making it easy to move around. Made using 93% recycled plastic the Sketch Toolbox is a friendly companion for daily life, whether in the home office, a workplace, the bathroom or wherever you might find yourself needing a bit of modern storage. "

— Thomas Bentzen

Designed by	Thomas Bentzen
Environment	Indoor
Country of Production	Denmark
Description	With a straightforward, functional design referencing the simple architectural lines of a house, Sketch Toolbox offers various rooms to accommodate a broad range of functions and needs in modern personal storage. Cast in one monolithic piece with a handle for portability, it is a friendly companion in daily life – at home, in the workshop or the nomadic workplace. The versatile toolbox is manufactured in Denmark using 100% recycled plastic.
Material	Produced using 100% recycled ABS plastic from post-consumer waste. The Sketch Toolbox is cast in one monolithic piece, which means that no screws are used and no assembly is needed.
Cleaning & Care	Clean with a moist cloth. If necessary, use a little dish soap on the cloth.
