BEAM TABLE LAMP

"The idea for the Beam Table Lamp came while renovating my childhood home. I had made a shelf to use as divider between the hallway and living room and needed a lamp that could at once throw light out into the living room and down the hallway. The Beam Table Lamp mimics a single ray of light that travels through a round tube with its dimmer allowing the user to change the volume of light omitted from both ends of the cylinder shape. Tweak the design to your personal needs through its rotating base and sleek body of anodized aluminum, whether it be as direct lighting or for an ambient glow. With the Beam Table Lamp, you can alter the volume of light omitted, change its direction by the turn of its base and place it on any shelf, table or windowsill for a new perspective on modern lighting."

CALM WALL LAMP

"Scandinavian design is partially characterized by its great respect for nature in terms of materials and light; something that I wanted to infuse the Calm Wall Lamp with, creating a light that isn't tamed but instead has an organic flow. This makes for a beautiful gradient between light and shadows that is enhanced by its textile surface for a tactile appearance. The Calm Wall Lamp has a sculptural identity that brings a soft and calming yet powerful presence to any atmosphere."

CONTROL TABLE LAMP

"The Control Table Lamp is a unique and playful lamp with references to hi-fi and industrial machinery. The light and dimmer is controlled by a switch, referencing volume controls, and is an inviting and simple way of interacting with the user. While designing the lamp, we were inspired by the idea of displaying the different lamp components on a serving plate—almost as a still life. It was a pragmatic approach to making a lamp by the simplest means, a reduced design beyond reduction."

EASE PORTABLE LAMP

"I wanted the Ease Portable Lamp to have a remarkable quality of light, striking a versatile balance between atmospheric and functional light — after all, that is the wonderful thing about a portable lamp — you can bring a distinct ambience to literally anywhere. I landed on the idea of the top and bottom gently touching, softly meeting each other. There is a sense of lightness to it. This feature allows a large surface to emit light, while the flared bottom firmly stabilizes it. It is these details that give the lamp a sort of human quality, making it a reliable friend."

— Johan van Hengel

Design by	Johan van Hengel
Environment	Indoor / Outdoor
Country of Production	China
Cord Length	90 cm / 35.4" USB wire incl. charging dock (no power adapter included)
Light Source Included	Yes - Integrated, non replaceable LED
Dimmable Function	Yes - Three step dimming
Description	Inspired by shapes of traditional table lamps, the Ease Portable Lamp transforms this typology into a carryable size, suitable to take wherever. Ease offers a high-quality dimmable, no-glare light with three levels, striking a balance between atmospheric and functional light. The design has a distinct lightness to it, with the top and bottom gently touching. A slightly flared bottom mimics the lip of a vase in a grounding gesture that allows the base to be slimmer and easier to grab. Ease Portable Lamp is a humble friend with a strong character that works alone or in repetition in any setting; from the bedside, reading nook and home office to the restaurant or café table, co-working space or library.
Material	Battery-powered, dimmable and portable lamp with 8 hours of battery life on 100% intensity, 16 hours on 50% intensity and 29 hours on 25% intensity. Body and lampshade made in injection-molded ABS plastic, with an integrated LED light source. Diffuser in opal acrylic. Charging dock made in injection-molded ABS plastic with USB-C cable. Lumen Maintenance (L70): 52.000h. Lumen: 230lm on 100% brightness. Kelvin: 2700K. CRI >90. The Ease Portable lamp is suitable for outdoor use with an IP54 rating. The lamp is protected and tested against solid foreign objects, such as dust ingress, as well as liquids, such as water splashes, from all angles.
Cleaning & Care	Clean with a moist cloth. If necessary, use a little dish soap on the cloth.

FLUID PENDANT LAMP

"We wanted to give the lamp a form with a certain softness, towards a more natural language and further removed from pure geometry. Fascinated by the way that surface tension governs the curvature of a resting water droplet, we have tried to capture its essence. The subtle irregularity of the Fluid Pendant Lamp means that their silhouette gently changes depending upon the viewing angle. It also brings a greater light intensity to the lamp's underside—just where you need it."

FOCUS TABLE LAMP

"The Focus Table Lamp is an everyday object with a sculptural appeal and an apparent function: it is a lamp and a pedestal where your favorite small objects may be placed and highlighted. Working with the appearance and the delicate dimensions, I tried to give the lamp a unique personality characterized by an embracing and protective nature. The focus is on the pedestal and the object which is placed on it. Therefore, all components are fixed in position. Personally, the pedestal, with a cone of ambient light, solved my problem of misplacing my keys. Now I always know where they are."

FINE SUSPENSION LAMP

“Fine Suspension Lamp is a minimal design refined to include only the essential; a slim light, a form-pressed fixture with aluminum end caps, a cord. We wanted it to feel delicate, almost jewelry-like — a sleek band of white light. It is a simple, raw expression of clarity and directness with an industrial character. Possible to hang both horizontally and vertically, we designed it so that the lamp’s light source is laid bare, yet gives a no-glare, comfortable light.”

PITON PORTABLE LAMP

"My idea for Piton started from the desire to create a rechargeable portable lamp that could be adapted in a multitude of ways while functioning in various environments. I wanted the design to fulfill the inherent needs of a torch; providing security and warmth while clearly illuminating your field of vision. Piton takes its name from a climbing apparatus that is jammed into cracks and crevices on mountainsides to which the climber can attach hooks, tools and ropes while rigging it in various positions; an element that is also present in the design of the Piton Portable Lamp."

RIME PENDANT LAMP

"Designing simple things is often one of the hardest things to do. We wanted to create a simple lamp with a glass shape, giving it a soft expression while making its top and pendant tube as subtle as possible. We were inspired by the shape of acorns for the gentle lines of the pendant while hinting towards the shaded expression of ice and rime for the glass of the design, allowing for the light to shine slightly through with a refined touch. The Rime Pendant Lamp brings a timeless yet modern perspective to the archetypal light through its translucent shade and graphic form."
