FREYA SERIES

DESIGN: SAYS WHO

The popular Freya series consists of several furniture products. The design of the Freya series is rooted in classic Danish furniture design but interpreted for present standards. A modern wooden series with an astonishing abundance of understated details, highlighting the high degree of craftsmanship in the Freya series.

BUTTERFLY SERIES

DESIGN: NIELS GAMMELGAARD

The Butterfly Series consists of 9 variants that offer a multitude of combinations with different kind of frames, wooden surfaces, and fabric variants. The chairs have a high seating comfort and elegant lightweight, yet distinctive and slim design. The seat shape and ease of the design resemble a butterfly, hence the name of these designer chairs.

Ø CHAIR

DESIGN: (2020) ØIVIND SLAATTO

A chair in modular design consisting of three parts - seat, back and frame - elegantly combined with just one screw. This makes the chair easy to disassemble, so parts can be recycled and reused. The chair is created under the aspect of unique design, longevity and minimal transport costs due to the chairs stacking ability.

BRUNCH TABLE SERIES

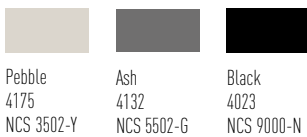

Brunch is a distinctive table with a simple, sleek and clear-cut expression. The 2,2mm slim table top of plywood is robust, and especially with a surface of high-pressure laminate, extremely durable and particularly suitable for canteens, cafés and waiting areas. Brunch is available with steel or wooden legs as a regular standard table, or with foldable legs.

MEETING TABLE

An elegant gable table in a light-weight material - the core of the table top consists of Honeycomb which minimizing material consumption and, at the same time, makes the table light and very strong. Two built-in castors are mounted in one of the gables, so the table can be easily moved to the area where it is to be used. A bar table for many different rooms and particularly useful as a meeting bar table, with the option of both hang-up function for bar chairs and foot rest.

FABRICS, ARTIFICIAL LEATHER AND LEATHER

Price ranges

The fabrics, as well as the fire-retardant CMHR polyurethane foam with high density: 60 kg/m³, have been chosen in due consideration of the fact that they should be able to withstand many years of hard daily wear regarding abrasion resistance, elasticity and cleaning

1. Abrasion resistance

According to the Technical Specifications from Danish Furnituremakers' Quality Control furniture fabrics used on a firm upholstery, which is on all our seating furniture, should fulfill the requirements of an abrasion resistance of 45.000 rubs according to the Martindale test method when exposed to normal use and 75.000 rubs in cases where the furniture is exposed to severe use as for instance in public environments. For less severe use a minimum of 25.000 rubs is needed.

2. Elasticity

On account of the from upholstery the fibres in the furniture fabric must have a certain degree of elasticity, i.e. the ability to contract after having been used, in order to avoid wrinkles or puckers which may occur when using cotton fabrics lacking this elasticity. In time leather stretches and wrinkles - more on a thick upholstery than on a thinner back upholstery. The thick leather types stretch less than thin leather.

3. Cleaning

As the major part of our seating furniture has a fixed upholstery, it is important that the furniture fabric is dirt-repellent and stands cleaning throughout a long period of time. This applies to woollen fabrics whereas Trevira CS and cotton fabrics attract dirt. This is why a removable seat cover should be chosen for seating furniture with a Trevira CS fabric in order to make the seat cover washable. Leather must have a surface treatment.

We reserve the right to reject furniture fabrics, vinyls or leather that we find unsuitable for the purpose of the furniture

Steel surfaces

Bright chrome or matt grained lacquer in standard colours at standard price. Powder coating in RAL 9006 aluminium in special colours at an additional price - shown for each product in the price list.
