Hello, we are Ocee & Four Design!

We are on a mission to turn every good space into a great experience. Experience is about connecting with people, and that is why our furniture is designed with people in mind: How do they connect with others? What inspires and engages them? Where do they feel most comfortable? Who do they spend their time with? Why do they work in the way they do? These questions form the basis of the creative, comfortable, and productive spaces we work with our partners to create.

Our furniture solutions and products are highly curated to suit a variety of needs and spaces. We believe nothing beats family, and our products reflect that. You will find solutions that work together in perfect harmony to create beautiful spaces, while also maintaining their individual characteristics as standalone designs.

Ingenious design, unrivalled functionality, a focus on people, and a healthy dose of wonder – this is how we turn good spaces into great experiences.
