Framery One

Our first digital soundproof pod. Framery One is not only stylish and super smart, it incorporates the latest technology, leading sound insulation standards and echo-free acoustics. The pod's impressive ventilation will keep you feeling fresh and focused, while you enjoy the high air quality. You can look forward to a highly adaptable workspace where you won't be disturbed by outside noise or distractions and can enjoy best-in-class design while you focus on your next project.

Framery One Premium

Get the most out of Framery One with Premium package. Framery One's impressive exterior comes in a range of Framery colors, while our design team have created a range of interior panel fabrics, carpet, seats and tables, so you can adapt the pod to suit your company style. And – if you need a super flexible solution – just add wheels. Both the seat and generous table (ranging from 70-120cm/27.6-47.2in in height) are designed to be easy to adjust, with footrests on the floor and fixed to the seat to keep you comfortable for long stretches. Activated carbon filter ensures the air inside the pod is always fresh, clean and free of odours.

Interior panels
Framery One's interior panels come in four different colors. Replaceable interior panels are made from PET sheets which are laminated with polyester fabric.

Exterior panels
Framery One's powder coated deep-drawn steel panels come in eight carefully selected colors.

Carpet
Framery One's carpet is extremely durable and has excellent acoustic properties while continuing with the soft touch of the interior materials. The carpet is available in four different colors and it's easy to install, remove and clean.

UI Panel
Adjust airflow & brightness of the light according to your own preference from the touchscreen. See both the availability of the pod and/or book a reservation (by using the optional calendar integration) from your own laptop or phone or just walk in and the pod reserves itself automatically for you. Integrated 4G technology module enables three-way communication between you, the pod and Framery. Whether it's about calendar reservations, pod maintenance, updates or notifications, all matters related to the Framery One pod are handled remotely (digitally). Pod outlets (1 power socket, USB C socket, optional LAN) are located on the UI Panel.

Occupancy light
Stepping into the pod, Framery One's occupancy lights will display a red light with 360° visibility to let the office know the pod is in use.

Activated Carbon Filter
Keep the air inside Framery One extra fresh and clean and free of odors with an activated carbon filter. The filter removes pollutants from the air with an adsorption process.

Height adjustable seat
The height adjustable seat has two footrests for comfortable working. The height can be adjusted vertically between 59 cm - 85 cm (23.2 in x 33.5 in).

The height adjustable table
The height adjustable table provides comfort for all users. The table can be adjusted vertically between 70 cm - 120 cm (27.6 - 47.2 in). The ample surface of the table (76 cm width & 46 cm depth/ 30 in x 18 in) provides space for laptops, personal devices and other work tools.

Framery One is UL GREENGUARD GOLD certified

Movability Kit
Framery One can be easily relocated without disassembly by lifting the levelling feet up and thus lowering the pod onto its wheels. The high load capacity polyurethane castor wheels are both durable and pliable.

Seismic Anchors
The seismic anchoring kit includes anchoring forks that clamp the levelling feet to the floor and earthquake bolting for the pod frames that further reinforce the pod structure and reduce any flex that might occur during heavy seismic loading.

Materials & finishes

It's handsome – inside and out

The much admired signature design of Framery office phone booths fits naturally in open offices. Our color schemes and accessories are selected to accommodate all styles and needs, while sustainable high-quality materials guarantee a quality user experience.

Happily you can design it anyway you like

Framery allows you to design yours to suit your needs from a wide range of useful accessories, fashionable colors and comfortable seating options. Choose what you like and we'll make it happen.

Basic features

World-famous acoustic performance is achieved with a combination of sustainably sourced materials, patented technology and signature design. Framery products have a high enough level of sound insulation that they can be placed close to workstations in an office and people working outside them will not be able to overhear discussions inside.

Patented innovations make Framery pods a refreshing place to work and meet. The indoor air quality of all Framery products is tested by accredited testing laboratories and is found to be well within limits set for occupied spaces.

Framery O, Q and 2Q are mainly constructed of birch plywood that is produced either in Finland or neighboring countries. A majority of the materials used are recycled or recyclable. The acoustic foam and the interior felt used in our products are up to 60-70 % recycled. A significant part of all steel, aluminium and glass used is recycled material.

No flammable materials are used in Framery products. The fire safety of all surface materials, upholstery and acoustics materials of the products is tested and classified to either national or international standards.

Framery products are all highly energy-efficient with a standard power consumption of 13-42 W. Our pods have their own power supplies that give 24 V DC to the lights and 12V DC to fans, and they can be just plugged into a wall socket. The lights and fans are operated by a motion detector. Inside the pods, there are country-specific power outlets for charging mobile devices.

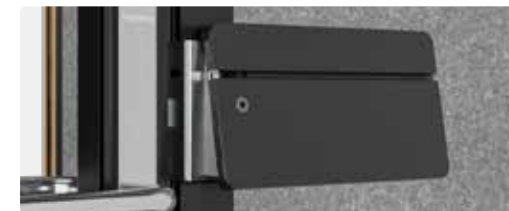

Turnable monitor arm

A turnable monitor arm allows two users to sit on one side of a Framery Q, turn a display towards them, and both be visible on a camera mounted on it. Compatible with Framery Q Meeting Maggie and Working with PAL 90.

Movability kit

Relocating your Framery pod has never been this easy! Movability kit includes castors and fasteners that can be installed to the bottom of the pod for moving it. Available for Framery O, Q and One.

Booking system ready

Universal booking system bracket. Attached to the door locking plate. Bracket set includes 2 plates to choose from, large and small. Booking system can be connected to pod's electrical system. Maximum device weight 5 kg / 11 lbs. Available for Framery Q and 2Q.

Copper-plated door handle

Copper has been used for health purposes since ancient times. According to a study by Centers for Disease Control and Prevention (CDC), The SARS-CoV-2 virus disintegrates quicker after landing on copper surfaces than on plastic or stainless steel surfaces. Available for Framery O, Q and 2Q.

Smart lock ready

Smart lock ready is a kit of parts that allows selected smart locks and key locks to be installed in Framery O, Q and 2Q.

Whiteboard paint

Utilize the walls of your pod and choose the whiteboard paint covers. Perfect for quick brainstorming, making notes or leaving messages for your colleagues. Easy to clean. Available for Framery O, Q and 2Q.

Wireless charger

Charge your phone fast and wire-free inside our pods! The charger itself is located underneath the table, with a sticker on top of the table indicating where to place your phone to get it charged. Available for Framery One, O and Q (Meeting Maggie, Working With PAL).

Anti-microbial, non-toxic polyester fabric

Anti-microbial, waterproof, bleach cleanable, stain resistant and durable polyester fabric. Our non-toxic material is safe and ISO 10993-5:2009 tested. Available for upholstered Framery furniture.

Framery O

Ideal for one – awkward for two

Framery O is ideal for important calls or video conferences. Have your discussions in privacy without disturbing your colleagues. The pioneering office phone booth delivers an echo-free and comfortable working environment. Installation is fast and the pod is ready to be used the same day it's delivered.

Framery Q

The soundproof office pod for 1-4 people

The Framery Q office pod is a perfect, soundproof place for people to have meetings, brainstorming sessions and important one-on-one conversations in private without disturbing the whole office – or the office disturbing you.

Framery 2Q

The full-size meeting room

The Framery 2Q meeting pod is designed for 4-6 people, making it the ideal place to co-create, brainstorm and have meetings. Our superior sound insulation ensures that your meetings won't disturb the office – and the office noise won't disturb you.

Framery O, Q, 2Q and One shipped in North America are UL 962 listed

Framery O, Q and 2Q are UL GREENGUARD certified

Framery O is available with left-handed door only.

Quick Call

Quick Call package has the basic features of a single-person pod that are needed for having a private phone call without disturbing your colleagues. In addition to superior sound insulation, it has a white high-pressure laminated table, acoustic interior felt, anti-static carpet, occupancy sensor, LED lighting and power outlet. Seat not included.

Standard

Standard package expands the use of a single-person pod to also include heads-down work. In addition to all the basic features of Framery O, it has a fixed height-adjustable Tovi stool and power outlet with USB-C+A.

Video Conference Ready

Framery O is also available in the Video Conference Ready variant. A tilting screen bracket and the LED lighting surrounding the screen provide optimal conditions for video conferences, with the control panel enabling you to adjust the lighting and airflow inside the pod.

Color

Color package includes all the color options available for Framery O making it an affordable way to fully personalize the pod. Option color seat fabric, exterior covers, door and door frame, table and power outlet with USB-C+A are included.

Furniture

Excellent ergonomics

Put your laptop on the table, sit comfortably on the Tovi stool and do your thing. Height adjustability ensures that the stool accommodates all users. The stool is attached to the pod with a robust fixing plate making it stable and durable. The color of the seat can be customized.

Tables of Framery O are designed to provide space for a laptop, a notebook and a mobile phone. They provide power for charging your devices while working or taking part in a call. There are two table options: regular and wide.

Functionalities

Movability kit for Framery O includes six castors to make it easier to move the pod.

Self-closing hinges can be used to limit the opening of doors and to make sure that they are not blocking passageways.

Power options include outlets with or without two charging USB-C+A sockets and a LAN cable lead-through. Wireless charging is also available.

Code handle can be used to limit access to a pod only for users with a number code.

• Included – Not available

Framery Q is available with a left- or right handed door. Flip n' Fold - left-handed only.

Working With PAL

A high table and handy bar stools make this decor option very efficient for short-term sessions. The shape of the desk is suitable for teamwork for two, private sessions or video and tele conferences. Working with PAL comes with pleasant LED lighting, three power sockets and stylish coat hangers.

Flow

The Framery Q Flow is designed for uninterrupted heads-down work. It comes with an adjustable electric table that allows you to change work positions in a matter of seconds. The Flow has plenty of space inside for a chair and even for a stool, making it possible to invite your colleague in for a chat. Get into the Flow!

Meeting Maggie

Meeting Maggie is suitable for meetings, brainstorming and much more. Choose from three different table options - two Maggie Sofas are always included. Meeting Maggie comes with pleasant LED lighting and three power sockets.

Flip n' Fold

Flip n' Fold is one of the more convenient and flexible interior alternatives for the Framery Q office pod. Low doorstep, a wider door with an automatic opener, folding chairs and table enable many different meeting arrangements and easy access with a wheelchair.

Furniture

Working With PAL

Furniture in Working with PAL is designed to facilitate individual work facing the glass, collaborative work with two users partly facing each other, and video conferencing with a laptop or a display in the middle. There are two table (90 cm and 110 cm) and stool heights (65 cm and 80 cm) to choose from. PAL stool always comes with a felt cap (color Cloudy Gray).

Meeting Maggie

There are three table options for Meeting Maggie. Turnable table allows something to be shown from a laptop and leaves room for entering and exiting the pod. Oval table is a compact fixed table. Full width table extends from wall to wall and maximizes table space. Maggie sofas are available in different backrest configurations and with or without armrests.

Functionalities

Movability kit for Framery Q includes eight castors to make it easier to move the pod.

Turnable monitor arm
A turnable monitor arm allows two users to sit on one side of a Framery Q, turn a display towards them, and both be visible on a camera mounted on it. Compatible with Framery Q Meeting Maggie and Working with PAL 90.

Booking System Ready is a universal booking tablet bracket with a plywood surface attached to the door locking plate. Two sizes available to fit your device.

Power outlet has two power and two charging USB (C+A) sockets as a standard. Options include a data cartridge with two LAN ports (includes two LAN cables) and wireless charging.

Screen bracket or Framery Q is in the center of the back glass and can be fitted with a maximum of 27" display with VESA 75 X 75 or 100 X 100 mounting. Not available for PAL 110.

• Included - Not available

Framery 2Q is available with left-handed door only.

Furniture

Lounge shelf and Piaggio
Custom-designed Clint Sofa, large whiteboard, free-standing Piaggio table and a wall shelf were designed to create a functional yet relaxed setting for meetings and brainstorming sessions.

Huddle table
Standard and high (72 cm and 110 cm). Gather your team of four around a spacious table where everyone fits comfortably, laptops included. There is enough space for overflow seating if more team mates drop by.

Without furniture

Have it in your style
You can choose the Framery 2Q meeting pod without furniture, leaving you the option to furnish it the way you like. The superb sound insulation ensures you and your team total sound privacy and the adjustable airflow creates a happy atmosphere to work in. The power column is a fixed component with 3 power sockets and charging twin USB (A+C), also providing an option for a display bracket or a whiteboard. A low doorstep makes the Framery 2Q wheelchair accessible.

Lounge

Living room in your office
Framery 2Q Lounge variation provides a more casual environment for company meetings, a calm space to retreat to during the work day, or an area for socialization. Custom-designed Clint Sofa, large whiteboard, free-standing Piaggio table and a wall shelf make up for a functional yet relaxed setting. Additional options include a display bracket on the wall for a TV or a booking system ready option for the door.

Huddle

Huddle up for your next team meeting!
Framery 2Q Huddle is an ideal setup for your meetings, whether everyone attending is present or some are joining remotely. Gather your team of four around a spacious table where everyone fits comfortably, laptops included! The spacious pod allows you to bring in two extra chairs and everyone to move around freely. Optimize your meetings with a screen bracket and whiteboard set on the opposite wall to ensure that everyone present, physically or virtually, shares the same vision.

Functionalities

Power outlets in Framery 2Q Lounge, there are six power and two charging USB (C+A) sockets. In Framery 2Q Huddle, there are four power, two charging USB (C+A) and a HDMI socket. Optional LAN ports are available for all configurations (replaces one of the power sockets).

Whiteboard is attached to either of the non-glass walls in any of the configurations. It is included in Framery 2Q Lounge as a standard.
