With **paro\_2** Austria's no. 1 office chair gets an update. **paro\_2** affords even more functions and excellent seating comfort - at a consistently high quality level and an extremely attractive price. The height-adjustable backrest ensures ergonomic support over the whole area of the back, as well as exact adaptation to the individual user's body shape from the lumbar spine (lordosis) to the thoracic vertebrae. Optionally, a second and higher backrest is available so that tall persons, too, are afforded full support of the back. The quick adjustment of the synchro-mechanism permits exact adaptation to the body weight. On request, **paro\_2** is also available with a mechanism offering automatic weight adjustment - the perfect solution for desk sharers and shift workers. The high-grade seat upholstery, seat depth adjustment via sliding seat, an adjustable neckrest and several arm options offer added comfort. With its different mesh and upholstery versions, along with complementary cantilever chairs, the **paro\_2** office chair family offers a broad range of functional and visually appealing designs. **paro\_2** swivel chairs are available either flat-packed or fully assembled.

#### Standard models:

##### Swivel chairs 5220 – 5226:

swivel base black plastic. Load-dependently braked twin wheel castors with hard running surface, Ø 60 mm. Black plastic operating elements and arms. Backrest either covered with mesh (Trevira CS, 100% polyester) or upholstered. Rear of backrest: for models with fabric or synthetic leather upholstery, outer back is always with black fabric (Trevira CS, 100 % polyester); for models with leather upholstery outer back is same as inner back.

##### Functions:

synchro-mechanism with lateral tension control (from 40 to 120 kg), lockable in several positions. Seat height adjustment via gas spring acc. to DIN 4550 and depth suspension. Seat depth adjustment via sliding seat (range of adjustment: 50 mm). Height-adjustable backrest (range of adjustment: 50 mm).

##### Options (surcharges apply):

synchro-mechanism with 3 degrees forward seat tilt, mechanism with automatic weight adjustment, adjustable neckrest (5222 and 5226), adjustable lumbar support (5224 and 5226), aluminium swivel base.

##### Arm options (surcharges apply):

###### Height-adjustable arms:

adjustable in height and width, with soft arm pads. Arm supports either black plastic or polished aluminium.

###### Multifunctional arms:

swivelling, soft arm pads, adjustable in height, width and depth. Arm supports either black plastic or polished aluminium.

##### Antistatic swivel chair (5220 and 5224):

antistatic model compliant with EN 61340. Aluminium swivel base. Antistatic arms adjustable in height and width, with soft arm pads, arm supports polished aluminium (optional). Upholstery only with antistatic fabric covers from the "antistatic" collection. Back covered with black mesh and/or with antistatic fabric cover from the Wiesner-Hager collection. Outer back upholstered in same fabric as inner back. Other equipment same as above.

##### Check-out chair 5228:

swivel base black plastic, plastic glides. Foot ring Ø 45 cm, chrome. Black plastic operating elements. Backrest upholstered. Rear of backrest: for models with fabric or synthetic leather upholstery, outer back is always with black fabric (Trevira CS, 100 % polyester); for models with leather upholstery outer back is same as inner back.

##### Functions:

synchro-mechanism with lateral tension control (from 40 to 120 kg), lockable in several positions. Seat height adjustment via gas spring acc. to DIN 4550 and depth suspension. Seat depth adjustment via sliding seat (range of adjustment: 50 mm). Height-adjustable backrest (range of adjustment: 50 mm).

##### Stool 5229:

black plastic five-star swivel base. Load-dependently braked twin wheel castors with hard running surface. Black plastic operating elements. Functions: height of seat adjustable through gas spring acc. to DIN 4550, depth suspension.

##### Cantilever chair 6232/6237:

precision tubular steel frame, plastic glides. Backrest covered with mesh (Trevira CS, 100 % polyester). Metal surface powder-coated. Model 6232: Arms with black plastic arm pads.

##### Cantilever chair 6234/6238:

precision tubular steel frame, plastic glides. Upholstered backrest. Rear of backrest: for models with fabric or synthetic leather upholstery, outer back is always with black fabric (Trevira CS, 100 % polyester); for models with leather upholstery outer back is same as inner back. Metal surface powder-coated. Model 6234: Arms with black plastic arm pads.

##### Cantilever chair 6236:

precision tubular steel frame, plastic glides. Seat shell fully upholstered. Rear of backrest: for models with fabric or synthetic leather upholstery, outer back is always with black fabric (Trevira CS, 100 % polyester); for models with leather upholstery outer back is same as inner back. Metal surface powder-coated. Arms with black plastic arm pads.

paro\_24/7

In call centres, control rooms and in multi-shift operation, workplaces are occupied 24 hours a day, 7 days a week. Swivel chairs in continuous operation are subjected to above-average wear. With **paro\_24/7** Wiesner-Hager has developed a swivel chair specifically for round-the-clock use. Moreover, thanks to a range of particularly hardwearing fabrics and its robust mechanics the chair has a load-bearing capacity of up to 150 kg. However the typical look of the **paro\_2** product family remains unchanged. The **paro\_24/7** is simple to operate, making it particularly user-friendly.

upholstery outer back is same as inner back.

**Functions:** synchro-mechanism with lateral tension control (up to 150 kg), lockable in several positions. Seat height adjustment via gas spring acc. to DIN 4550 and depth suspension. Seat depth adjustment via sliding seat (range of adjustment: 50 mm). Height-adjustable backrest (adjustment range: 50 mm). Synchro-mechanism with forward seat tilt – seat can be tilted 5 degrees forwards.

**Optional extras** (surcharges apply): adjustable neckrest (5223 and 5227), adjustable lumbar support (5225 and 5227).

**Arm options** (surcharges apply): **Height-adjustable arms:** adjustable in height and width, with soft arm pads. Polished aluminium supports. **Multifunctional arms:** swivelling, soft arm pads, adjustable in height, width and depth. Polished aluminium arm supports.

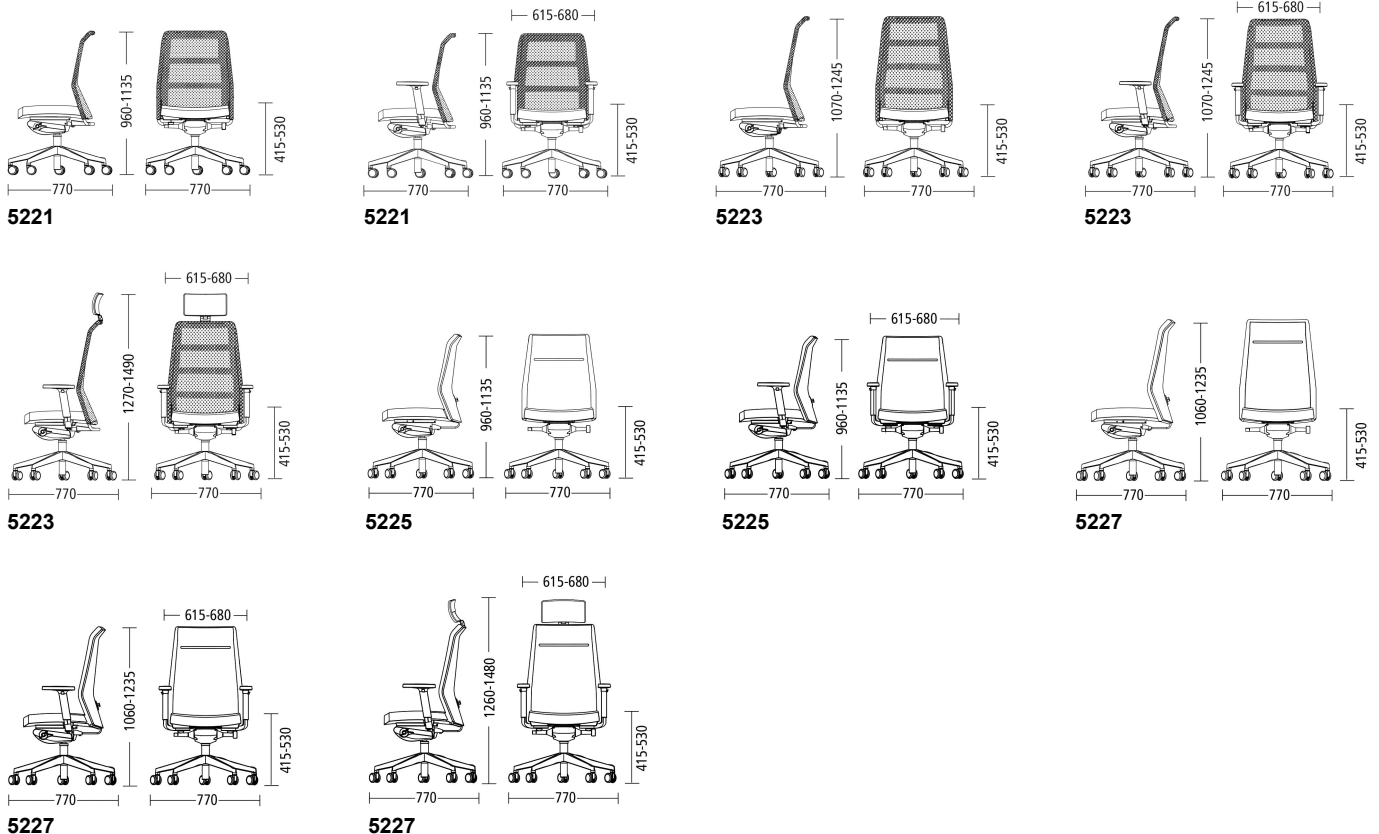

Tested according to EN 1335  
PPP 51051A  
BS 5459

**poi** represents a completely new generation of swivel chairs: the perfect combination of aesthetics, comfort and well-engineered ergonomics makes **poi** both unique and economically attractive. The characteristic feature of **poi** is the elegant monocoque design. The colour variations of the seat upholstery add a certain touch to the office and make **poi** versatile - stylish, classy, or young and fresh. The ergonomic and dynamic back frame in black or white is covered with a semi-transparent net mesh. **poi** stands for high seating comfort. By means of the laterally arranged quick adjustment of spring force the reclining pressure can be adapted to the body weight via two and a half turns at most. The next-generation synchro-mechanism permits a finely coordinated movement of seat and back. A sliding seat permits the horizontal adjustment of the seat depth. In combination with the height adjustable lumbar support, the infinitely variable seat height, and the multi-dimensional armrest the chair can be perfectly adapted to the body height.

**Standard model:**

**Swivel chairs:**

black plastic swivel base. Load-dependently braked twin wheel castors Ø 60 mm with hard running surface. Gas lift type-tested acc. to DIN 4550, black, with depth suspension. Black plastic operating elements and armrests. Seat and frame construction of backrest black or white polyamide. Back optionally with mesh or inner back upholstered, rear of backrest with black mesh.

Optional: seat with increased seat depth.

**Neckrest:**

steel frame black or white metal (analogous to the colour of the seat and the back), upholstered.

**Functions:**

seat and backrest inclination can be fixed in several positions via synchro-mechanism. Quick tension spring adjustment from 45 to 120 kg with only two and a half turns of the lateral hand-wheel. Adjustment of seat depth via sliding seat. Infinitely variable seat height adjustment via gas spring type-tested acc. to DIN 4550 and depth suspension.

**Against surcharge:**

Synchro-mechanism with 3 degrees forward seat tilt, adjustable lumbar support.

**Arms:**

**Height-adjustable arms:**

adjustable in height and width, with soft arm pads. Arm supports black plastic.

**Conference arms:**

arm pads black plastic, not adjustable, arm support black or white metal (analogous to the colour of the seat and the back).

**Multifunction arms:**

swivelling pads, adjustable in height, width and depth, with soft arm pads. Polished aluminium arm support.

**Antistatic swivel chair:**

antistatic model according to EN 61340.

Aluminium swivel base. Antistatic arms

adjustable in height and width, with soft arm pads, aluminium polished arm support.

Upholstery only in antistatic fabric cover from collection "antistatic". Back optionally with black mesh or inner back upholstered (rear of backrest with black mesh). Other equipment same as above.

**Conference chair:**

**Model 6290/6291 with auto-return mechanism:**

polished or powder-coated die-cast aluminium four-star swivel base. Black plastic glides.

Swivel column with auto-return mechanism, chromed, not adjustable to height. Synchro-

mechanism for automatic weight adjustment. Adjustment of seat depth via sliding seat. Seat

and frame construction of backrest black or white polyamide. Back optionally with mesh

or inner back upholstered, rear of backrest with black mesh. Arm pads black plastic, not

adjustable, arm support black or white metal (analogous to the colour of the seat and the

back).

Optional: seat with increased seat depth.

**Against surcharge:**

adjustable lumbar support.

**Cantilever chair 6295:**

precision tubular steel frame, plastic glides.

Powder-coated metal surface. Arms with black plastic arm caps. Seat black or white polyamide

with increased seat depth. Backrest bent tubular steel optionally with black mesh (Trevira CS,

100 % polyester) or fully upholstered.

point2

Matured ergonomically, **point2** combines distinctive shaping with a lightness in design. **point2** displays outstanding ergonomic qualities through its synchronic adjustment of depth of seat and height of the backrest. Therefore, the swivel-chair can be ideally adjusted to fit the body-size of the user. The height of the arms can be adjusted independently.

**Standard model:**

**Swivel chairs:**

powder-coated aluminium five-star swivel base. Load-dependently braked twin wheel castors with hard running surface. Aluminium armrest support and backrest profile, powder-coated backrest frame. Black plastic operating elements.

**Functions:**

patented synchronic adjustment of depth of seat and height of backrest; height adjustable arms; synchronic mechanism with tension spring adjustment, can be fixed in several positions. Seat height adjustable with gas lift acc. to DIN 4550, depth suspension.

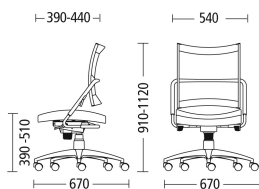

**Available for a surcharge:**

synchroflex mechanism - seat can be tipped forward 5 degrees.

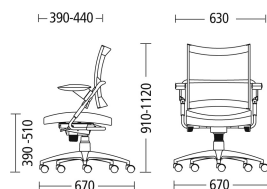

**Stackable cantilever:**

precision tubular steel frame, aluminium backrest profile on the sides, arms black synthetic covering, plastic glides. Powder-coated metal surfaces.

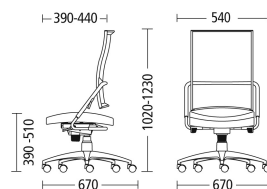

Tested according to EN 1335  
Design: M. Ballendat
